

4.

14. (Original) The container of Claim 10, wherein said projections extend across only a portion of said depth defining a clearance.
15. (Original) The container of Claim 14, wherein said projections are centered in the depthwise direction, whereby said clearance is defined on front and rear sides of or said projection.
16. (Original) The container of claim 10, wherein said projections have a substantially cubed shape.
17. (Original) A container for soap used in connection with a keyed dispenser, the container comprising:
 - a hollow body for receiving the soap;
 - a projection extending laterally from said body and engageable with the interior of the dispenser to laterally restrict movement of the container; and
 - a projection extending longitudinally from said body and engageable with the interior of the dispenser to longitudinally restrict movement of the container without a key.
